DEFINITION OF TERMS AND ABBREVIATIONS

The following terms and abbreviations are used throughout the West Virginia Investment Management Board's annual report and are listed here to help with the overall readability of this document.

Board – The thirteen-member Board of Trustees that governs the West Virginia Investment Management Board.

BrickStreet – BrickStreet Mutual Insurance Company, a private, for-profit employers' mutual insurance company in West Virginia.

Cap – Abbreviation for “capitalization,” referring to the size of the investment market for that particular asset style.

IMB – The West Virginia Investment Management Board including the Trustees, Plan Representatives, Committee Members, and staff.

Participant Plan – A specific group of assets entrusted to the IMB. Retirement plans, endowments, and insurance trusts, for example, are all participant plans.

Pool – Refers to the specific investment pool created and operated by the IMB for a specific investment asset class.

Introduction

West Virginia Investment Management Board

Website: www.wvimb.org

September 3, 2008

Dear Fellow West Virginians:

On behalf of the Board of Trustees of the West Virginia Investment Management Board, I am pleased to present the Board's annual financial report for the fiscal year ending June 30, 2008. Please note that additional information about the Investment Management Board may be accessed electronically on its website, www.wvimb.org.

The 2008 fiscal year has been a challenging one for the Investment Management Board. As most of you are well aware, the major financial markets deteriorated rapidly throughout the course of the year. Given that, the Investment Management Board is relatively fortunate to only be down 6.5 percent for the year (using the Public Employees' Retirement System as a proxy for all long-term assets). A longer term perspective is more important, however, and from that perspective I am happy to report a return for the five-year period ending June 30, 2008 of 8.9 percent. Through great teamwork, I am confident that the Investment Management Board will successfully navigate its way through these difficult markets.

Four years ago two of our defined pension plans, the Teachers' Retirement System and Public Safety Death, Disability and Retirement Fund, were funded at 22.2 percent and 25.6 percent, respectively. In those four years, we have reopened the Teachers' Retirement System to new hires, provided a mechanism for teachers in the Defined Contribution Plan to transfer over to the Teachers' Retirement System, contributed excess revenue in the millions of dollars to the plans, securitized Tobacco Settlement revenue to further contribute to the Teachers' Retirement System, invested well and passed legislation to give the Investment Management Board more investment tools. By fiscal year 2007, the Public Safety, Death, Disability and Retirement fund was 90 percent funded and as of the end of fiscal year 2007, the Teachers' Retirement System's funded level increased by over 100 percent. It is exciting to be a part of the dramatic changes that have been made to improve the health of these retirement plans over the past few years.

Finally, I wish to thank the staff of the Investment Management Board for its dedicated service. I am pleased, as are the other trustees, with their professionalism, commitment to our mission, and customer service.

Very truly yours,

Joe Manchin III
Governor, State of West Virginia
Chairman, Board of Trustees

West Virginia Investment Management Board

September 3, 2008

Dear Trustees:

It is with great pleasure that I submit the Annual Report of the West Virginia Investment Management Board (IMB). The IMB is considered an internal service fund of the State of West Virginia for financial reporting purposes and, as such, the significant financial information contained in this report is also included in the State of West Virginia's comprehensive annual financial report. The information presented in this report is the responsibility of the management of the IMB, and sufficient internal accounting controls exist to provide reasonable assurance regarding the safekeeping of assets and fair presentation of the financial statements, supporting schedules, and statistical tables. The report is also designed to comply with the reporting requirements of Chapter 12, Article 6, Section 6 of the *West Virginia Code*, as amended. This report is divided into the following sections:

- The Organization section which contains general information regarding the trustees and staff, history of the IMB, statutory mandate, and investment philosophy.
- The Investment Objectives and Financial Highlights section, which outlines the more specific objectives and performance of each of the investment pools.
- The Participant Plans section, which contains a brief description of each of the participants whose assets are entrusted to the IMB.
- The Audited Financial Statement, which contains the independent auditor's report, the financial statements and notes thereto, and required supplementary information regarding the funds administered by the IMB.

As an investment organization, the IMB's constant focus is the performance of its investments as it seeks to satisfy the investment needs of the beneficiaries of the assets entrusted to it. As of June 30, 2008, the IMB return was down 6.5 percent net of expenses for the fiscal year (using the Public Employees' Retirement System as a proxy for the other systems because of its similarity to other statewide public plans throughout the nation). As you well know, of greater significance is the longer-term performance. In that regard, over the five years ending June 30, 2008, the IMB's return was 8.9 percent versus the policy benchmark of 8.7 percent which represents millions of dollars in value added by the trustees and staff. Over the ten-year period ending June 30, 2008, the IMB's return was 6.1 percent. A corresponding policy portfolio for the ten-year period is not practically relevant as the IMB spent the first few years of that ten-year period transitioning from a portfolio made up of virtually 100 percent fixed income securities to one consisting of 60 percent stocks and 40 percent fixed income.

The majority of assets managed by the IMB are for participants with longer time horizons. These include the defined benefit pension plans, employment security plans and other trust assets. Specifically, for the defined benefit pension plans, the returns for the fiscal year

ending June 30, 2008, ranged from negative 7.7 percent for the Teachers' Retirement System to negative 6.5 percent for the Public Employees' Retirement System. Differences in returns for the various pension plans are a function of the differences in the timing of cash flows into and out of each plan and relative levels of cash equivalent securities necessary to make benefit payments. Other trust assets, including the Wildlife Endowment Fund and Prepaid Tuition Trust Fund, returned negative 6.5 and negative 6.4 percent respectively.

With regard to employment security assets, the reader will note a significant difference in returns from defined benefit plans. Although the difference in the timing of cash flows is a factor in the differences in the returns of these insurance assets versus other types of assets, the difference in the respective plans' allocation to stocks plays a much greater role. For fiscal year 2008, only 20 percent of the Pneumoconiosis Fund is allocated to stocks while the Workers' Compensation Old Fund had an allocation of 30 percent to stocks and 60 percent to fixed income with 10 percent in short-term investments. The Board of Risk and Insurance Management and the Public Employees' Insurance Agency also have allocations commensurate with their needs. As a result, the return for the fiscal year ending June 30, 2008, ranged from 4.4 percent for the Workers' Compensation Self-Insured Fund to negative 1.3 percent for the Workers' Compensation Old Fund.

Herein, the plans with long time horizons, as a group, are generally referred to as the "participant plans." Specific data on returns and objectives on all the participant plans may be found in the pages that follow.

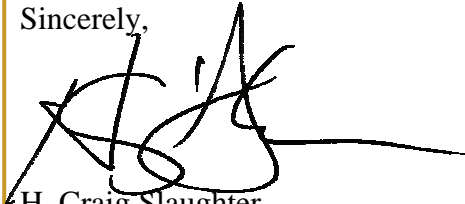

While the IMB maintains that each participant is different, demanding an individualized approach to asset allocation, it is sometimes helpful to compare its asset allocation with its peers. Again, using the Public Employees' Retirement System as a proxy for the IMB because of its large and relatively healthy funded status, a comparison highlights two distinct differences. First, the IMB's allocation to fixed income for fiscal year 2008 was 13 percent higher than the average for its peers. While stock allocations are relatively close, within a few percentage points, the average public fund has a 10 percent allocation to what are called "alternative" assets—real estate, private equity, and hedge funds. The "alternative" group of assets has performed extremely well in the last few years adding significant value to most public fund portfolios.

It is important to note that the dramatic difference between the IMB's asset allocation and that of its peers is not a result of unconstrained analysis. It is the result of artificial restrictions on the available universe of asset classes imposed by West Virginia statutes. Fortunately, in fiscal year 2007, the statutes were changed to allow for a significant, although limited, allocation to this alternative group of assets. While the timing of the change prevented the IMB from making any significant allocations to these assets in fiscal year 2008, the IMB's portfolio will be further diversified into these asset groups in fiscal year 2009. While potential incremental return from these asset groups is desired, the greatest contribution to the portfolio in the long run is the reduction in risk that results from greater diversification.

Fiscal year 2009 promises to be the beginning of an exciting period for the IMB. Governmental leaders have made the fiscal health of the State a priority, which has meant that the significantly underfunded retirement systems, the Teachers' Retirement System and the Public Safety Retirement System, have received a tremendous influx of dollars to improve their funded status over the last few years. As the funded status of these plans grows, the impact of the IMB's investment performance is increased. As we move into fiscal year 2009 with the latitude to diversify investments into other asset groups, the IMB will be much better prepared with the tools it needs to invest the assets efficiently and effectively.

On behalf of staff, it is with excitement that we look forward to helping trustees fulfill the statutory mandate and fiduciary requirement to invest assets of participant plans in the best interest of beneficiaries.

Sincerely,

A handwritten signature in black ink, appearing to read 'H. Craig Slaughter', with a long horizontal line extending to the right.

H. Craig Slaughter
Executive Director

Paul O'Dell, Jr., Committee Member

Judges' Retirement System

Jack Alsop, Representative

1. By statute, the Consolidated Public Retirement Board and the West Virginia Insurance Commission are responsible for appointing a representative for each plan who may select a committee of up to three individuals. The representative and committee members work with the Investment Management Board to develop the investment policy for their respective plan. They are appointed on an annual basis.

STAFF MEMBERS

Executive Staff —

Craig Slaughter, Executive Director

Matthew Jones, Chief Financial Officer / Chief Operating Officer

Kristy Watson, Chief Investment Officer

Investments Division —

Rodney Livingston, Senior Investment Officer

Tom Sauvageot, Fixed Income and Real Estate Investment Officer

Operations Division —

Roger Summerfield, Director of Operations

Brian DuBois, Investment Accountant Supervisor

Linda Davis, Trade Analyst

Polly Frazier, Investment Accountant

Betty Hammack, Investment Accountant

Leigh Ann Moore, Investment Accountant

Traci Pollitt, Alternative Investment Analyst

Records Management —

Rebecca King, Corporate Records Administrator

Support Staff —

Jo Ann Aldredge, Administrative Assistant to the Executive Director

Jane Heitz, Secretary / Receptionist

Milly Torman, Administrative Assistant to the Chief Investment Officer

Technology —

John Cole, Director of Technology

Rick Greathouse, Network Administrator

Internal Audit —

Melissa Petit, Internal Auditor

ORGANIZATIONAL HISTORY

The West Virginia Investment Management Board came into existence in the spring of 1997 after years of hard work modernizing the State's investment management structure. This structural modernization was widely acknowledged as a necessary precursor to the passage of a constitutional referendum to allow investment in stocks. The risks in stocks were perceived to be too great to be managed by anything but a modern, professional entity.

Although the West Virginia Investment Management Board's predecessors, the West Virginia State Board of Investments and the West Virginia Trust Fund, Inc., brought about vast improvements, each had shortcomings. However, with the creation of the West Virginia Investment Management Board, the State achieved a balance between control and independence that will allow efficient and prudent investment management of long-term assets well into the future.

The beginning of the modern era in investment management by the State goes back to the late 1970s with the consolidation of investment authority for the State's defined benefit plans, employment security plans, and other assets into a newly created **West Virginia State Board of Investments**. One of the goals of the legislation was to achieve efficiencies that size brings by commingling like assets.

Significantly, this newly created West Virginia Board of Investments was staffed by the State Treasury and the board itself was made up of the State's Governor, Treasurer, and Auditor.

Although a step in the right direction, the initial West Virginia State Board of Investments lacked proper or sufficient control features. After a few problems in the 1980s, principally involving its short-term pool, the Consolidated Fund, the board was expanded to seven members, adding four members from the private sector including an attorney experienced in financial matters and a Certified Public Accountant.

In the fall of 1990, the Legislature took a huge leap forward by creating a staff for the West Virginia State Board of Investments separate from the staff of the Treasury. This provided clear accountability to the Board of Investments—something that did not exist previously.

Other very important control features included: (1) a statutory requirement for an Internal Auditor, (2) an annual external audit by a certified public accounting firm, and (3) monthly reporting requirements to government leaders in accordance with generally accepted accounting principles. This last feature dictated that all pools with a weighted average maturity in excess of 90 days must be marked-to-market (carried at market value), something that had not been done in the 1980s.

At the same time, the West Virginia State Board of Investments made its first tepid step towards a diversified portfolio to be invested in stocks domiciled in the United States. Although it made some initial stock purchases in 1993, which were subsequently liquidated at a gain, the statute was challenged and the West Virginia Supreme Court ruled that investing in equities was unconstitutional.

In 1996, in an effort to satisfy the constitutional strictures, the Legislature carved out the pension and employment security funds with long time horizons and placed them in a trust to be managed by a new entity called the **West Virginia Trust Fund, Inc.** While the creation of

the trust did not satisfy the constitutional concerns of the State Supreme Court, it did bring about three very important changes. The Legislature, demonstrating incredible managerial foresight, granted the West Virginia Trust Fund, Inc. control over its own budget. With the same impeccable foresight, the Legislature imposed personal fiduciary liability on the board and staff of the West Virginia Trust Fund, Inc. Of no less importance was the creation of representative roles for members of the retirement systems and employment security systems.

With the failure of the West Virginia Trust Fund, Inc., it and the West Virginia State Board of Investments were replaced in 1997 by a new entity, the present day **West Virginia Investment Management Board**. The basic modernization process was complete. All of the improvements made in the Board of Investments and the West Virginia Trust Fund, Inc. were incorporated into the new entity.

The Legislature, for policy reasons, transferred the Consolidated Fund on July 8, 2005 to a newly created **West Virginia Board of Treasury Investments**, chaired by the State Treasurer. This was widely perceived as a policy move to ensure direct governmental oversight of State general and special revenue funds. The West Virginia Investment Management Board continues to manage the retirement funds, the employment security funds, and other assets with long time horizons.

Finally, in 2007 the Legislature expanded the investable universe of assets, increasing the allowable allocation to public equity and international securities, while also providing for a significant allocation to “alternative investments,” loosely defined as hedge fund and private equity.

STATUTORY MANDATE

The West Virginia Investment Management Board (IMB) was created during the 1997 legislative session and is cited as the West Virginia Investment Management Board Act (the Act). The legislative findings of the Act make it clear that the IMB was intended to be a professional, apolitical, financial management organization dedicated to the interests of the State's teachers, public employees and workers in general. The Act was intended to give the IMB "...the authority to develop, implement and maintain an efficient and modern system for the investment and management of the State's money." In order to accomplish this purpose, the Act further stated that the IMB must "...operate as an independent board with its own full-time staff of financial professionals immune to changing political climates..." [West Virginia Code §12-6-1(a)(b)] The Act also mandates that the assets of the Consolidated Pension Plan, the Defined Benefit Plans for Teachers, Deputy Sheriffs, Public Employees and the Workers' Compensation Fund and the Coal Workers' Pneumoconiosis Fund, are "*declared to be irrevocable trusts, available for no use or purpose other than for the benefit of those public employees...workers, miners and their beneficiaries...*" [West Virginia Code §12-6-1(c)(d)] The IMB is further "*empowered by this Article to act as Trustee of the irrevocable trusts created by this Article, and to manage and invest other state funds.*" [West Virginia Code §12-6-1a(f)]

The standard of care mandated by the Statute is that codified in the "Uniform Prudent Investor Act" as Article 6C of Chapter 44 of the *West Virginia Code*. The IMB is further subject to the following requirements:

- (a) *Trustees shall discharge their duties with respect to the 401(a) Plans for the exclusive purpose of providing benefits to participants and their beneficiaries;*
- (b) *Trustees shall diversify fund investments so as to minimize the risk of large losses unless, under the circumstances, it is clearly prudent not to do so;*
- (c) *Trustees shall defray reasonable expenses of investing and operating the funds under management;*
- (d) *Trustees shall discharge their duties in accordance with the trust documents and instruments governing the trusts or other funds under the management insofar as the documents and instruments are consistent with provisions of this Article; and*
- (e) *The duties of the Board apply only with respect to those assets deposited with or otherwise held by it. [West Virginia Code §12-6-11]*

ADMINISTRATIVE MANDATE

Governance of the West Virginia Investment Management Board is vested, by statute, in a thirteen-member Board of Trustees. Three members of the Board serve by virtue of their office: the Governor, the Auditor, and the Treasurer. The other ten are appointed by the Governor and confirmed by the Senate. All appointees must have experience in pension management, institutional management or financial markets. In addition, one must be an attorney experienced in finance and investment matters and another must be a Certified Public Accountant. Only six of the ten appointed Trustees may be from the same political party. The Governor serves as Chairman of the Board. A Vice-Chairman is elected by the Trustees. A Secretary, who need not be a member of the Board, is also elected by the Trustees to keep a record of the proceedings of the Board.

A member of each defined benefit retirement plan is designated by the Consolidated Public Retirement Board to represent the Participant Plans' interests. Likewise, the West Virginia Insurance Commission designates a representative for the Pneumoconiosis Fund and the Workers' Compensation Old Fund. Each of the representatives may designate up to three persons to comprise a committee representing their respective plan's beneficiaries. The representatives and committee members do not have a vote but have the right to be heard at the annual meetings of the Board and are subject to the same code of conduct and requirements of confidentiality that apply to the Trustees.

The day-to-day management of the IMB is delegated to the Executive Director who is appointed by the Board and serves at its will and pleasure. The Executive Director acts as an advisor to the Board on all matters pertaining to its business and, with the approval of the Board, contracts for professional services and employs the remaining staff needed to operate the IMB.

The staff of the IMB is divided into two principal divisions—Operations and Investments. See the organizational chart on the following page.

West Virginia Investment Management Board Organizational Chart

The Operations Division is focused on providing the back office support necessary for the organization to function on a day-to-day basis. The Investments Division is structured to devote its time and resources to staying current with new developments and research in the investment field and being prepared to apply this knowledge to the investment of assets for the IMB.

INVESTMENT PHILOSOPHY

The primary objective of the investment pools is to provide benefits to its participants and beneficiaries. Based on general beliefs about the long-term investment return available from a well-diversified, prudently invested portfolio, the Board has adopted specific investment objectives for each individual plan.

In order to achieve a specified real rate of return, the Board relies on the prevailing financial theory, which currently is an investment strategy utilizing an appropriate long-term diversified asset allocation model. A prudently allocated investment program possesses a certain level of diversification, which produces risk reduction. Asset allocation modeling takes into consideration specific unique circumstances of each participant plan, such as size, liquidity needs, and financial condition (funded status) as well as general business conditions. The factors mentioned here are not intended to be limiting; rather, they are outlined as a general indication of the importance of diversification to proper asset allocation. The Board determines the proper allocation among asset classes and managers based on advice and analysis provided by staff and/or external investment consultants.

The Board recognizes that even though its investments are subject to short-term volatility, it is critical that a long-term investment focus be maintained. This prevents ad hoc revisions to its philosophy and policies in reaction to either speculation or short-term market fluctuations. In order to preserve this long-term view, the Board has adopted the following formal review schedule:

Agenda Item	Review Schedule
Investment Performance	Quarterly
Investment Policy	Every Year
Strategic Asset Allocation	Every Three Years
Policy Asset Allocation	Every Three Years

The Board may hire investment managers to implement its objectives. These managers will be given specific tactical roles within the overall strategic investment plan. Depending on their assignments, the managers may be judged on some or all of the following: (i) consistency of philosophy, style and key personnel, (ii) performance relative to an appropriate index or proxy group, and (iii) ability to add incremental value after costs. The Board and staff shall monitor performance and supervise all fund managers.

In determining its philosophy towards risk, the Board considers, in addition to its fiduciary obligations and statutory requirements, each entity's purpose and characteristics, financial condition, liquidity needs, sources and level of contributions, income and general business conditions. Based upon these many factors, the Board identifies whether a more aggressive or more conservative approach is warranted on an individual plan-by-plan basis.

Investment Objectives

“The Board, at its annual meeting...shall review, establish and modify, if necessary, the investment objectives of the individual participant plans, as incorporated in the investment policy statements of the respective trusts so as to provide for the financial security of the trust funds giving consideration to the following: (1) Preservation of Capital; (2) Diversification; (3) Risk Tolerance; (4) Rate of Return; (5) Stability; (6) Turnover; (7) Liquidity; and (8) Reasonable Costs of Fees.” [West Virginia Code §12-6-12g]

Participant Plans

The Board’s objective is to manage the participant plans’ moneys in an efficient and economical manner, managing risk as it seeks to achieve the specific goals set out in each participant plan’s investment program.

*Investment Objectives and
Financial Highlights*

Short-Term Fixed Income Pool

Objectives

The Short-Term Fixed Income pool was created to maintain sufficient liquidity to meet the daily disbursements requested by the participant plans and to invest any contributions until the time the money is transferred to other asset classes without sustaining capital losses and while earning a small return above inflation. The portfolio is structured as a money market fund where the goal is a stable dollar value per share, thus, preserving principal. The risk factor on this portfolio is low and managed through numerous maturity restrictions, diversification guidelines, and credit limits. The participants are paid on an income basis that includes interest income net of expenses.

Management Structure

The Short-Term Fixed Income pool is managed by JPMorgan Investment Advisors, Inc.

Financial Highlights

Progression of Net Assets (in \$000s)

Net assets - June 30, 2007	\$	1,209,900
Net increase from operations		7,242
Income distributions to unitholders		(7,222)
Net decrease from unit transactions		(975,891)
Net assets - June 30, 2008	\$	<u>234,029</u>

Investment Securities (in \$000s)

	<u>Carrying Value</u>
Short-term issues	\$ 210,426
U.S. government agency issues	23,498
Total	<u>\$ 233,924</u>

Short-Term Fixed Income Pool (continued)

Investment Performance

The IMB calculates total rates of return using the time-weighted rate of return methodology. The time-weighted method determines the rate of return exclusive of the effects of participant contributions or withdrawals.

Expenses

The IMB charges each investment pool for its direct investment-related expense and an allocated share of other expenses. The Short-Term Fixed Income pool's expenses for the year, divided by the average net assets, are as follows:

<u>Expense Category</u>	<u>Expense Ratio (in basis points)</u>
Investment advisor fees	5.5
Trustee fees	0.1
Custodian bank fees	0.8
Management fees	2.2
Fiduciary bond fees	0.1
Professional service fees	0.7
Total expenses	9.4

Fixed Income Pool

Objectives

The main objective of the Fixed Income pool, which, in the aggregate, comprises a core bond portfolio, is to generate investment income, provide stability and diversification, but not at the expense of total return.

Management Structure

The Fixed Income pool is co-managed by the following firms, each having a specific investment style which, in the aggregate, comprises the core Fixed Income pool.

<i>Manager</i>	<i>%</i>	<i>Style</i>
Western Asset Management	60%	Core Plus
Barclays Global Investors	40%	Passive Customized Blend

Financial Highlights

Three separate investment pools have been established to comply with specific legal and accounting requirements. Individually, these pools are the Fixed Income pool, the Fixed Income Qualified pool, and the Fixed Income Nonqualified pool. These pools are individually reported in the audited financial statements and have been combined in the financial highlights as follows:

Progression of Net Assets (in \$000s)

Net assets - June 30, 2007	\$ 3,912,728
Net increase from operations	152,018
Income distributions to unitholders	(366,282)
Net decrease from unit transactions	(13,333)
Net assets - June 30, 2008	<u>\$ 3,685,131</u>

Fixed Income Pool (continued)

Investment Securities (in \$000s)

	Fair Value
Commingled fixed income pools	\$ 2,772,947
Corporate issues	747,005
U.S. government agency issues	240,128
Short-term issues, options, and swaps	165,035
U.S. Treasury issues	76,318
Total	<u>\$ 4,001,433</u>

Investment Performance

The IMB calculates total rates of return using the time-weighted rate of return methodology. The time-weighted method determines the rate of return exclusive of the effects of participant contributions or withdrawals.

Fixed Income Pool (continued)

Expenses

The IMB charges each investment pool for its direct investment-related expense and an allocated share of other expenses. The Fixed Income pool's expenses for the year divided by the average net assets are as follows:

<u>Expense Category</u>	<u>Expense Ratio (in basis points)</u>
Investment advisor fees	2.4
Trustee fees	0.1
Custodian bank fees	0.2
Management fees	2.6
Fiduciary bond fees	0.1
Professional service fees	0.7
Total expenses	<u>6.1</u>

THIS PAGE INTENTIONALLY LEFT BLANK

Equity Pool

Objectives

The main objective for the Equity pool is to provide for long-term growth for its participants.

Management Structure

The Equity pool is comprised of separate sub-asset classes, which, when taken in aggregate, enable adequate diversification. These sub-asset classes are listed in the table below with their strategic allocations:

Equity Class	Strategic Allocation
Domestic Large Capitalization	42.5%
Domestic Non-Large Capitalization-Growth	3.0%
Domestic Non-Large Capitalization-Value	4.5%
International-Developed Markets	33.0%
International-Small Capitalization	8.5%
International-Emerging Markets	8.5%

Each of these sub-asset classes have multiple investment managers, each managing in accordance with a particular investment style. These managers are as follows:

<i>Manager</i>	<i>Style</i>
<u>Domestic Large Capitalization</u>	
State Street Global Advisors	Enhanced Index Core
Enhanced Investment Technologies, LLC	Quantitative Core
<u>Domestic Non-Large Capitalization</u>	
Westfield Capital Management	Growth at a Reasonable Price
Aronson+Johnson+Ortiz, LP	Relative Value
<u>International</u>	
Developed Markets	
Silchester International Investors	Developed Country, Value
LSV Asset Management	All Country, Value
Small Capitalization	
AXA Advisors	All Country, Core
Wasatch Advisors, Inc.	All Country, Growth
Emerging Markets	
Brandes Investment Partners, Inc.	Emerging Market, Value

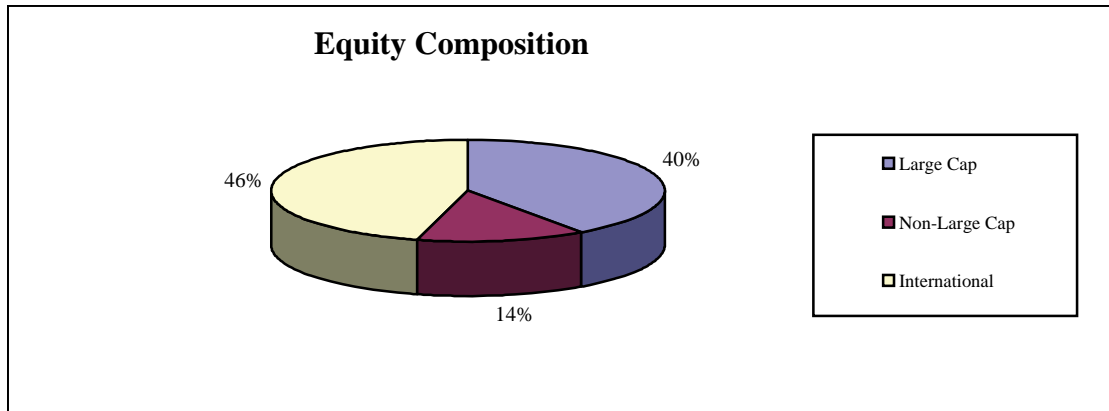

Equity Pool (continued)

Financial Highlights

Separate investment pools have been established to comply with specific legal and accounting requirements. These pools are individually reported in the audited financial statements and have been combined in the financial highlights as follows:

<i>Composite</i>	<i>Individual Pools per Audited Financial Statements</i>
Large Cap	Large Cap Domestic Pool
Non-Large Cap	Non-Large Cap Domestic Pool
International	International Qualified Pool International Nonqualified Pool International Equity Pool

Progression of Net Assets (in \$000s)	Large Cap	Non-Large Cap	International
Net assets - June 30, 2007	\$ 2,083,839	\$ 1,329,448	\$ 1,905,039
Net decrease from operations	(360,790)	(151,562)	(281,303)
Income distributions to unitholders	-	(680,592)	-
Net increase from unit transactions	213,357	162,513	575,576
Net assets - June 30, 2008	\$ 1,936,406	\$ 659,807	\$ 2,199,312

Equity Pool (continued)

Investment Securities (in \$000s)

Equity Pool (continued)

Investment Performance

The IMB calculates total rates of return using the time-weighted rate of return methodology. The time-weighted method determines the rate of return exclusive of the effects of participant contributions or withdrawals.

Equity Pool (continued)

Equity Pool (continued)

Expenses

The IMB charges each investment pool for its direct investment-related expense and an allocated share of other expenses. The Equity pool's expenses for the year, divided by the average net assets, are as follows:

<u>Expense Category</u>	Expense Ratios (in basis points)		
	<u>Large Cap</u>	<u>Non-Large Cap</u>	<u>International</u>
Investment advisor fees	9.0	52.4	50.4
Trustee fees	0.1	0.1	0.1
Custodian bank fees	0.3	1.1	4.3
Management fees	2.6	2.9	2.6
Fiduciary bond fees	0.1	0.2	0.1
Professional service fees	0.6	0.7	0.7
Total expenses	<u>12.7</u>	<u>57.4</u>	<u>58.2</u>

Alternatives Pool

Objectives

The main objective for the Alternatives pool is to provide for diversification and risk reduction benefits for its participants' assets. Secondly, the pool should provide for long-term growth of its participants' assets.

Management Structure

The Alternatives pool is comprised of one asset class, Private Equity, and one management style, Hedge Fund. Both are intended to enhance diversification when added to the total portfolio assets.

Private Equity is comprised of the following categories and target allocations as of June 30, 2008:

	Range
Corporate Finance	90-100%
Venture Capital	0-10%

Hedge Fund strategies are comprised of the following categories and target allocations as of June 30, 2008:

	Range	Max
Relative Value	25-55%	60%
Event Driven	20-40%	50%
Long-Short Equity	15-35%	40%
Directional	0-20%	25%

Financial Highlights

Two separate investment pools have been established to comply with specific legal and accounting requirements. These pools are individually reported in the audited financial statements and in the financial highlights as the Private Equity pool and the Hedge Fund pool.

Progression of Net Assets (in \$000s)	Private Equity	Hedge Fund
Net assets - June 30, 2007	\$ -	\$ -
Net decrease from operations	(7,538)	(506)
Income distributions to unitholders	-	206
Net increase from unit transactions	876,598	300
Net assets - June 30, 2008	<u>\$ 869,060</u>	<u>\$ -</u>

Alternatives Pool (continued)

Investment Securities (in \$000s)

	Fair Value	
	Private Equity	Hedge Fund
Investment in other funds	\$ 794,072	\$ -
Short-term issues	57,046	67
Partnerships	17,899	-
Total	<u>\$ 869,017</u>	<u>\$ 67</u>

Alternatives Pool (continued)

Investment Performance

The IMB calculates total rates of return using the time-weighted rate of return methodology. The time-weighted method determines the rate of return exclusive of the effects of participant contributions or withdrawals.

In addition, for the Private Equity pool only, the IMB calculates additional returns using the internal rate of return (IRR) methodology. The IRR method is the return rate that equates the present value of cash outflows with the present value of cash inflows. The IRR method considers both cash flow timing and size and is the preferred performance measure for private market funds.

Performance returns are not reported for the Private Equity pool for the first five years of the program (until June 30, 2013), as early returns from an immature program are not meaningful.

Performance returns are not available for the Hedge Fund pool as of June 30, 2008 as there are no assets invested in the program yet.

Expenses

The IMB charges each investment pool for its direct investment-related expense and an allocated share of other expenses. Expense ratios are not presented as they are not meaningful due to the short period of these pools' existence.

Real Estate Pool

Objectives

The main objective for the Real Estate pool is to provide for diversification and risk reduction benefits for its participants' assets. Secondly, the pool should provide for long-term growth of its participants' assets.

Management Structure

The Real Estate pool is comprised of three categories. The target allocations as of June 30, 2008 are as follows:

Core	30%
Value-Added	40%
Opportunistic	30%

Financial Highlights

Progression of Net Assets (in \$000s)

Net assets - June 30, 2007	\$	-
Net decrease from operations		(1,623)
Net increase from unit transactions		35,559
Net assets - June 30, 2008	\$	<u>33,936</u>

Investment Securities (in \$000s)

	Fair Value
Short-term issues	\$ 20,391
Partnerships	13,598
Total	\$ <u>33,989</u>

Real Estate Pool (continued)

Investment Performance

The IMB calculates total rates of return using the time-weighted rate of return methodology. The time-weighted method determines the rate of return exclusive of the effects of participant contributions or withdrawals.

In addition, the IMB calculates additional returns using the internal rate of return (IRR) methodology for any private investment. The IRR method is the return rate that equates the present value of cash outflows with the present value of cash inflows. The IRR method considers both cash flow timing and size and is the preferred performance measure for private market funds.

Expenses

The IMB charges each investment pool for its direct investment-related expense and an allocated share of other expenses. Expense ratios are not presented as they are not meaningful due to the short period of this pool's existence.

Participant Plans

Death, Disability and Retirement Fund for Deputy Sheriffs

History

The Death, Disability and Retirement Fund for Deputy Sheriffs (Deputy Sheriffs) was created in 1998.

Liquidity Needs

Deputy Sheriffs currently has positive net cash flows.

Investment Objectives

The investment objectives are as follows:

- Exceed the actuarial interest rate assumption of 7.5 percent per annum, net of fees.
- Preserve the current well-funded position while not subjecting the Deputy Sheriffs to an undue level of risk.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for the Deputy Sheriffs. Policy targets are established on a market value basis.

Asset Class	Policy Target
Domestic Equity	25.0%
International Equity	25.0%
Total Equity	50.0%
Fixed Income	20.0%
Private Equity	10.0%
Hedge Fund	10.0%
Real Estate	10.0%
Cash (included in Fixed Income above)	\$250,000*

**IMB staff has authority to change the cash target plus or minus 10 percent, as necessary, in consultation with appropriate representative(s) from the Death, Disability and Retirement Fund for Deputy Sheriffs.*

Public Employees' Retirement System

History

The Public Employees' Retirement System (PERS) was created in 1961.

Liquidity Needs

PERS is expected to have modest liquidity needs of approximately 1 percent to 2 percent per year for the foreseeable future.

Investment Objectives

The investment objectives are as follows:

- Exceed the actuarial interest rate assumption of 7.5 percent per annum, net of fees.
- Reduce the unfunded liability while maintaining adequate liquidity to satisfy benefit payments and not subjecting PERS to an undue level of risk.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for PERS. Policy targets are established on a market value basis.

Public Safety Death, Disability and Retirement Fund (Plan A)

History

The Public Safety Death, Disability and Retirement Fund (Public Safety) was created in 1925.

Liquidity Needs

Public Safety is expected to experience a modestly negative cash flow position.

Investment Objectives

The investment objectives are as follows:

- Exceed the actuarial interest rate assumption of 7.5 percent per annum, net of fees.
- Reduce the unfunded liability while maintaining adequate liquidity to satisfy benefit payments while not subjecting Public Safety to an undue level of risk.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for Public Safety. Policy targets are established on a market value basis.

Teachers' Retirement System and Teachers' Employers Contribution Collection Account

History

The Teachers' Retirement System (TRS) was created in 1941. It was closed to new members in 1991, but reopened to first-time hires as of July 1, 2005. Employees hired from 1991 through June 30, 2005, joined the Teachers Defined Contribution Plan. In the spring of 2008, more than seventy-eight percent of the participants in the Teachers' Defined Contribution Plan elected to transfer into the TRS. This transfer will occur in July 2008.

The Teachers' Employers Contribution Collection Account (TECCA) is a holding account for temporary reserve cash. Due to its short-term nature, assets are entirely invested in the Short-Term Fixed Income pool.

Liquidity Needs

TRS has a very dynamic net cash flow position, which is attributable to: (1) a current positive net cash flow position, and (2) substantial liquidity needs of at least 10 percent per year beginning in plan year 2014.

Investment Objectives

The investment objectives are as follows:

- Exceed the actuarial interest rate assumption of 7.5 percent per annum, net of fees.
- Reduce the unfunded liability while maintaining adequate liquidity to satisfy benefit payments while not subjecting TRS to an undue level of risk.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for TRS. Policy targets are established on a market value basis.

Asset Class	Policy Target

West Virginia Retiree Health Benefit Trust Fund

History

The West Virginia Retiree Health Benefit Trust Fund (RHBTF) was created under *West Virginia Code §5-16D* for the purpose of providing for and administering retiree post-employment health care benefits, and the respective revenues and costs of those benefits as a cost sharing multiple employer plan.

Liquidity Needs

The RHBTF is expected to have minimal liquidity needs until fiscal year 2011, upon which time annual liquidity needs will become high.

Investment Objectives

The investment objective is to provide for stable, long-term growth of assets, while seeking to minimize risk of loss. There is no specifically identified rate of return target.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for RHBTF. Policy targets are established on a market value basis.

Asset Class	Policy Target
Domestic Equity	2.5%
International Equity	2.5%
Total Equity	5.0%
Fixed Income	95.0%
Cash (included in Fixed Income Above)	*

**Cash levels to be reviewed as needed, at least annually, collaboratively with management staff from PEIA.*

Investment Performance

Investment performance for the period of April 1, 2008 through June 30, 2008 was negative 0.6 percent. RHBTf has no defined target rate of return.

Emergency Medical Services Retirement System

History

The Emergency Medical Services Retirement System (EMSRS) was created under the Emergency Medical Services Retirement System Act effective January 1, 2008, under *West Virginia Code §16-5V-4*. EMSRS members with benefits earned in the Public Employees Retirement System (PERS) transfer their full membership and benefits under PERS to EMSRS on the effective date.

Liquidity Needs

The EMSRS is expected to have no liquidity needs for at least three years. In fiscal year 2012, cash distributions may commence, but liquidity needs are still expected to be minimal.

Investment Objectives

The investment objectives are as follows:

- Exceed the actuarial interest rate assumption of 7.5 percent per annum, net of fees.
- Maintain adequate liquidity to satisfy benefit payments and not subject the EMSRS to an undue level of risk.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for EMSRS. Policy targets are established on a market value basis.

Asset Class	Policy Target

Investment performance for the period of April 1, 2008 through June 30, 2008 was negative 3.7 percent. EMSRS has no defined target rate of return.

Pneumoconiosis Fund

History

The Pneumoconiosis Fund was formed in 1974 to provide for insurance coverage to coal operators for their potential liability under the Federal Coal Mine Health and Safety Act of 1969. Upon termination of the Workers' Compensation Commission, the assets and liabilities of the Pneumoconiosis Fund remained with the State for administration of the run-off of the liabilities incurred during the years of operation. Effective January 1, 2006, insurance coverage for liabilities incurred under the Federal Coal Mine Health and Safety Act will be provided by BrickStreet and other private insurance carriers and is no longer available through the State.

Liquidity Needs

The liquidity needs are actuarially determined based on the run-off of liabilities, which are assessed annually.

Investment Objectives

The investment objectives are as follows:

- Exceed the actuarial interest rate assumption of 5.0 percent per annum, net of fees.
- Preserve the current surplus position.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for the Pneumoconiosis Fund. Policy targets are established on a market value basis.

Asset Class	Policy Target
Domestic Equity	10.0%

Investment Performance

The IMB calculates total rates of return using the time-weighted rate of return methodology. The time-weighted method determines the rate of return exclusive of the effects of participant contributions or withdrawals.

Workers' Compensation Old Fund

History

Formed in January 2006, the Workers' Compensation Old Fund (Old Fund) assumed responsibility for payment of all workers' compensation claims and liabilities incurred by the former West Virginia Workers' Compensation Commission prior to July 1, 2005. After July 1, 2005, workers' compensation claims or liabilities incurred will be covered by BrickStreet.

Liquidity Needs

The Old Fund has high liquidity needs through approximately 2010, as expected operating cash outflows exceed expected operating cash inflows. Operating cash inflows will be supplemented by multiple external sources, including the BrickStreet Surplus Note repayment starting in 2008, and statutorily pledged personal income tax and severance tax legislative transfers equal to the amount of any cash shortfall every year until full funding is achieved. For this reason, the Old Fund should maintain a flat to slightly positive net cash flow position until it is fully funded at which time pledged legislative transfers will cease resulting in a sharp decline in net cash inflows. Liquidity needs for short-term cash, the amount necessary for approximately twelve months' worth of anticipated claims, will continue to be reviewed annually with appropriate staff from the Offices of the West Virginia Insurance Commissioner.

Investment Objectives

The investment objectives are as follows:

- Exceed the actuarial interest rate assumption of 5.0 percent per annum, net of fees.
- Provide adequate liquidity to meet cash flow requirements.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for the Old Fund. Policy targets are established on a market value basis.

Asset Class	Policy Target
Domestic Equity	15.0%
International Equity	15.0%
Total Equity	30.0%
Fixed Income	40.0%
Hedge Fund	20.0%
Cash	10.0%*

**Cash levels to be reviewed as needed, at least annually, collaboratively with management staff from the Offices of the West Virginia Insurance Commissioner.*

Investment Performance

The IMB calculates total rates of return using the time-weighted rate of return methodology. The time-weighted method determines the rate of return exclusive of the effects of participant contributions or withdrawals.

Workers' Compensation Self-Insured Guaranty Risk Pool

History

The Workers' Compensation Self-Insured Guaranty Risk Pool (Self-Insured Pool) was established on January 1, 2006, for the purpose of paying the workers' compensation claims of defaulted self-insured employers occurring on or after July 1, 2004. It consists of those funds transferred, and any future funds collected, under the authority of Senate Bill 1004.

Liquidity Needs

To date, only one employer has defaulted on its self-insured workers' compensation liabilities, thereby, creating a liability for the Self-Insured Pool. As all current and active self-insured employers are required to provide a bond, security, or other collateral to the Offices of the West Virginia State Insurance Commissioner in the event of a deteriorating financial condition, it is anticipated that the liquidity position of this fund should remain stable.

Investment Objectives

The investment objectives are as follows:

- Provide adequate liquidity to meet the cash flow requirements.
- Exceed the actuarial interest rate assumption, which is not expected to exceed 5.0 percent per annum, net of fees, once established.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for the Self-Insured Pool. Policy targets are established on a market value basis.

Asset Class	Policy Target
Domestic Equity	0.0%
International Equity	0.0%

Workers' Compensation Uninsured Employers' Fund

History

The Workers' Compensation Uninsured Employers' Fund (Uninsured Fund) was established January 1, 2006, under Senate Bill 1004 to provide for the benefit of injured workers, and received initial funding of \$5,000,000 by proclamation of the Governor.

Liquidity Needs

During the early years of the Uninsured Fund, the liquidity needs will be high as the cash flows are difficult to predict until the frequency of claim activity is established.

Investment Objectives

The investment objectives are as follows:

- Provide adequate liquidity to meet the cash flow requirements.
- Exceed the actuarial interest rate assumption, which is not expected to exceed 5.0 percent per annum, net of fees, once established.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for the Uninsured Fund. Policy targets are established on a market value basis.

Asset Class	Policy Target

Wildlife Endowment Fund

History

The Wildlife Endowment Fund was created in 1986 to supplement the Division of Natural Resources' annual budget in support of various statewide projects.

Liquidity Needs

The liquidity needs of the Wildlife Endowment Fund will be set on an annual basis and determined by a separate Wildlife Endowment Board as established by the Division of Natural Resources.

Investment Objectives

The investment objectives are as follows:

- Achieve a total rate of return of at least 6.0 percent per annum, net of fees.
- Provide adequate liquidity to meet cash flow requirements.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for the Wildlife Endowment Fund. Policy targets are established on a market value basis.

West Virginia Prepaid Tuition Trust Fund and West Virginia Prepaid Tuition Trust Escrow Account

History

The West Virginia Prepaid Tuition Trust Fund (Tuition Trust) was established in 1997 with the objective of enhancing and improving higher education in the State. This is accomplished by providing individuals and organizations a means for paying future college tuition and fees in advance at a rate set at current levels.

Effective March 2003, the Trust Fund was closed to new contracts unless the Legislature authorizes the fund to reopen. The West Virginia Prepaid Tuition Trust Escrow Account (Escrow Account) was created in 2003 in the state treasury to guarantee payment of existing prepaid tuition plan contracts which may add up to \$1,000,000 per year for a period of ten years ending June 30, 2013.

Liquidity Needs

There are rising liquidity needs for the Tuition Trust. Benefits and expenses will exceed receipts from participants' monthly payments on prepaid tuition contracts at an increasing rate in future years.

There are no current liquidity needs for the Escrow Account. In order to eliminate any actuarially-determined projected unfunded liability, the Escrow Account will receive payments from the Unclaimed Property Trust Fund over a period of ten fiscal years not to exceed \$1,000,000 per year.

Investment Objectives

The investment objectives are as follows:

West Virginia Prepaid Tuition Trust Fund

- Meet or exceed the actuarial interest rate assumption of 7.25 percent per annum, net of fees.
- Generate long-term, net of fee, returns that exceed liquidity needs.
- Build and maintain an actuarial surplus at a level recommended by the actuaries.

West Virginia Prepaid Tuition Trust Escrow Account

- The Escrow Account is mandated by law to be 100 percent invested in fixed income securities.
- No target rate of return has been established.

West Virginia Prepaid Tuition Trust Fund and West Virginia Prepaid Tuition Trust Escrow Account (continued)

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for the Tuition Trust. Policy targets are established on a market value basis.

Asset Class	Policy Target

Asset Allocation (in \$000s)

Fixed Income	\$	2,520	100%
Total	\$	<u><u>2,520</u></u>	<u><u>100%</u></u>

Investment Performance

The IMB calculates total rates of return using the time-weighted rate of return methodology. The time-weighted method determines the rate of return exclusive of the effects of participant contributions or withdrawals. The rates of return for the one-year and three-year periods ending June 30, 2008 were 3.3 percent and 3.6 percent, respectively. A target rate of return has not been set for this plan.

Revenue Shortfall Reserve Fund

History

The Revenue Shortfall Reserve Fund (Reserve Fund) was created as a result of legislation passed in the 2006 regular legislative session under *West Virginia Code §11B-2-20*. It is to be funded from State surplus revenues accrued, if any, during the most recent fiscal year. The first 50 percent of all such surplus revenues will be deposited into the Reserve Fund within 60 days of the end of each fiscal year. The Reserve Fund is not required to be additionally funded if, or when, its balance meets or exceeds 10 percent of the State's General Revenue Fund budget for the fiscal year just ended. The West Virginia Legislature is authorized and may make an appropriation from the Reserve Fund for revenue shortfalls, for emergency revenue needs caused by acts of God or natural disasters, or for other fiscal needs, as it determines.

Liquidity Needs

The Reserve Fund is intended to be co-managed between the IMB and the West Virginia Board of Treasury Investments. A cash account of \$100,000,000 must be invested throughout the life of the Reserve Fund in cash with the West Virginia Board of Treasury Investments. Any assets in excess of \$100,000,000 will be invested with the IMB. The West Virginia State Budget Office will monitor these asset balances and will direct both the IMB and the West Virginia Board of Treasury Investments when the transfer of funds is necessary from one to the other.

Cash outflows are uncertain. The assets may be withdrawn, in whole or in part, at any time as directed by the West Virginia State Legislature or by executive order. Historically, cash outflows in similar state funds created for similar purposes have had withdrawals reimbursed by the State within each fiscal year.

Investment Objectives (for the assets managed by the IMB)

The investment objective is to provide for stable, long-term growth of assets, while seeking to minimize risk of loss. There is no specifically identified rate of return target, as the Reserve Fund is perpetual endowment-like with no anticipated or scheduled liabilities.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for the Reserve Fund. Policy targets are established on a market value basis.

Asset Class	Policy Target
Domestic Equity	30.0%
International Equity	30.0%
Total Equity	60.0%
Fixed Income	20.0%
Hedge Fund	20.0%
Cash	0.0%*

**Statutory cash requirement of \$100,000,000 will be invested by the West Virginia Board of Treasury Investments.*

Revenue Shortfall Reserve Fund (continued)

Short-Term Fixed Income	3,158	2%
Fixed Income	76,942	43%
Hedge Fund	(2)	0%
Total	\$ 180,137	100%

Investment Performance

The IMB calculates total rates of return using the time-weighted rate of return methodology. The time-weighted method determines the rate of return exclusive of the effects of participant contributions or withdrawals. The rates of return for the one-year and two-year periods ending June 30, 2008 were negative 6.0 percent and positive 3.8 percent, respectively. A target rate of return has not been set for this plan.

Revenue Shortfall Reserve Fund - Part B

History

The Revenue Shortfall Reserve Fund - Part B (Reserve Fund - Part B), created by legislation passed in the 2006 regular legislative session under *West Virginia Code §11B-2-20*, was funded using the entire balance of the assets in the former Tobacco Settlement Medical Trust Fund. The West Virginia Legislature is authorized and may make expenditures from the Reserve Fund - Part B for the purposes set forth in *West Virginia Code §4-11A-3* or in instances of revenue shortfalls or fiscal emergencies of an extraordinary nature.

Liquidity Needs

The Reserve Fund - Part B is intended to experience no cash outflows, but this is not entirely certain, as the West Virginia Legislature may appropriate a qualified expenditure as noted above. Cash inflows are expected to be minimal and emanate from loan repayments from the Physicians' Mutual Insurance Company [*West Virginia Code §33-20F*] as well as other insurance tax payments.

Investment Objectives

The investment objective is to provide for stable, long-term growth of assets, while seeking to minimize risk of loss. There is no specifically identified rate of return target as the Reserve Fund - Part B is perpetual endowment-like with no anticipated or scheduled liabilities.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for the Reserve Fund - Part B. Policy targets are established on a market value basis.

Asset Class	Policy Target

The time-weighted method determines the rate of return exclusive of the effects of participant contributions or withdrawals. The rates of return for the one-year and two-year periods ending June 30, 2008 were negative 6.4 percent and positive 4.9 percent, respectively. A target rate of return has not been set for this plan.

Board of Risk and Insurance Management Fund

History

The Board of Risk and Insurance Management (BRIM) is a State entity charged with providing insurance coverage to all State agencies, as well as, cities, counties, and non-profit organizations throughout West Virginia under the provisions of Senate Bill 3. BRIM also provides a coal mine subsidence reinsurance program that allows homeowners and businesses to obtain insurance coverage up to \$75,000 for collapses and damage caused by underground coal mines.

Liquidity Needs

There are no current liquidity needs for BRIM since cash inflows from operations are currently sufficient to pay claims and expenses. BRIM requires a cash reserve account for collateral purposes amounting to approximately 15 percent of the funds for investment. This amount is held in the Consolidated Fund, which is administered by the West Virginia Board of Treasury Investments and utilized at BRIM's discretion. BRIM advises the IMB staff of the amounts in this cash reserve account.

Investment Objectives

The investment objectives are as follows:

- Achieve a total rate of return of at least 4.9 percent per annum, net of fees.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for the BRIM. Policy targets are established on a market value basis.

Asset Class	Policy Target
Domestic Large Cap Equity	10.0%
International Equity	10.0%

Public Employees' Insurance Agency

History

The Public Employees' Insurance Agency (PEIA) is a State entity charged with providing health insurance coverage to current and retired public employees.

Liquidity Needs

PEIA projects net cash outflows from operations every year going forward. Net cash outflows as a percentage of assets invested increases dramatically in fiscal years 2008 and 2009, and presumably, going forward. This anticipated high liquidity requirement within a three-year time horizon indicates a substantial allocation to cash is appropriate. PEIA currently manages part of its 40 percent cash allocation and invests this amount in the Consolidated Fund administered by the West Virginia Board of Treasury Investments. The IMB collaborates with management at PEIA to monitor combined cash levels.

Investment Objectives

The investment objectives are as follows:

- Achieve a total rate of return of at least 5.4 percent per annum, net of fees.

Asset Allocation

Based upon a determination of the appropriate risk tolerance, the Board adopted the following broad asset allocation guidelines for the assets managed for PEIA. Policy targets are established on a market value basis.

Asset Class	Policy Target
Domestic Large Cap Equity	7.5%
International Equity	7.5%
Total Equity	15.0%

Independent Auditors' Report

Board of Trustees
West Virginia Investment Management Board:

We have audited the accompanying statements of assets and liabilities of the West Virginia Investment Management Board (WVIMB) Large Cap Domestic, Non-Large Cap Domestic, International Qualified, International Nonqualified, International Equity, Short-Term Fixed Income, Fixed Income, Fixed Income Qualified and Fixed Income Nonqualified, including the schedules of investments in securities, as of June 30, 2008, and the related statements of operations, changes in net assets and cash flows (International Qualified and International Nonqualified only) and financial highlights (included in note 11) for the year then ended. We have also audited the accompanying statements of assets and liabilities of the West Virginia Investment Management Board Private Equity, Private Real Estate and Hedge Fund Investment Pools, including the schedules of investments in securities, as of June 30, 2008, and the related statements of operations, changes in net assets and cash flows and financial highlights (included in note 11) for the period from February 1, 2008 (the date of commencement of operations) to June 30, 2008. These financial statements and financial highlights are the responsibility of WVIMB management. Our responsibility is to express an opinion on these financial statements and financial highlights based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of WVIMB's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

As described in note 1, these financial statements were prepared on a basis of accounting following U.S. generally accepted accounting principles established by the AICPA applicable to investment companies which is a comprehensive basis of accounting other than U.S. generally accepted accounting principles for state and local governments established by the Government Accounting Standards Board.

In our opinion, the financial statements and financial highlights referred to above present fairly, in all material respects, the financial position of the West Virginia Investment Management Board Large Cap Domestic, Non-Large Cap Domestic, International Qualified, International Nonqualified, International Equity, Short-Term Fixed Income, Fixed Income, Fixed Income Qualified, Fixed Income Nonqualified, Private Equity, Private Real Estate and Hedge Fund Investment Pools as of June 30, 2008, and the results of its operations, changes in its net assets, cash flows, and its financial highlights for the periods referred to in the first paragraph above on the comprehensive basis of accounting described in the preceding paragraph and in note 1.

Our audits were made for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information included on pages 90-91 is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audits of the basic financial statements and, accordingly, we express no opinion on it.

West Virginia Investment Management Board

Investment Pools

Notes to Financial Statements

NOTE 1. DESCRIPTION OF THE ENTITY

The West Virginia Investment Management Board (IMB) was organized on April 25, 1997, as a public corporation created by *West Virginia Code §12-6-1* to provide prudent fiscal administration and investment management services to designated State pension funds, the State's Workers' Compensation and Pneumoconiosis funds, and certain other State government funds.

A Board of Trustees, consisting of thirteen members, governs the IMB. The Governor, the State Auditor and the State Treasurer are ex officio members of the Board of Trustees. The Governor appoints all other Trustees for a term of six years.

The IMB operates on a fiscal year that begins July 1 and ends June 30.

The accompanying financial statements reflect only the investments and investment related operations of the IMB (referred to herein as the Investment Pools) and do not reflect any activity occurring with the Administrative Fund of the IMB or any other assets or liabilities, or restrictions thereon, or the various investment pool participants. Accordingly, these financial statements are not intended to and do not present the comprehensive financial position and operations of the IMB or any of the investment pool participants.

These financial statements have been prepared on a basis of accounting following U.S. generally accepted accounting principles (GAAP) established by the Financial Accounting Standards Board (FASB) applicable to investment companies, which is a comprehensive basis of accounting other than U.S. GAAP for state and local governments established by the Government Accounting Standards Board. The IMB has selected this basis of accounting because it believes that the disclosures required for investment companies better reflect the purpose and operations of the Investments Pools.

A summary of the differences between the financial statements of the Investments Pools prepared in accordance with U.S. GAAP for investment companies, and U.S. GAAP for state and local governments are as follows:

	Investment Company GAAP	State and Local GAAP
Management's Discussion and Analysis	Not required	Required
Schedule of Investments in Securities	Required	Not required
Statement of Operations	Required	Not required
Investment Risk Disclosures	Provided but not required	Required
Financial Highlights	Required	Not required

There are no differences in the reported amounts of assets, liabilities, net assets, investment operations, distributions, or fund unit transactions between U.S. GAAP for investment companies and U.S. GAAP for state and local governments.

NOTE 1. DESCRIPTION OF THE ENTITY (Continued)

A brief description of the individual pools within the fund follows:

Large Cap Domestic - The pool's objective is to exceed, net of external investment management fees, the S&P 500 Stock Index over three- to five-year periods. Enhanced Investment Technologies, LLC, and State Street Global Advisors manage assets of this pool.

Non-Large Cap Domestic - This pool invests in the equities of small- to mid-sized companies and its objective is to exceed, net of external investment management fees, the Russell 2500 Index over three- to five-year periods. Assets of this pool are managed by Aronson + Johnson + Ortiz, LP and Westfield Capital Management. During March 2008, this pool also held international securities as part of an overall investment portfolio restructuring that included a transition to alternative investment classes and an increased exposure to international markets. These securities were transferred to the appropriate investment pools on April 1, 2008.

International Qualified - Funds of this pool are invested in Silchester International Investors' Value Equity Group Trust. This pool is expected to produce investment returns that exceed the Morgan Stanley Capital International's Europe Australasia Far East (EAFE) Index by 200 basis points on an annualized basis over three- to five-year periods, net of external investment management fees. Only "qualified participants" (as defined by the *Internal Revenue Code*) may invest in this pool.

International Nonqualified - Funds of this pool are invested in Silchester International Investors' Value Equity Trust. This pool is expected to produce investment returns that exceed the Morgan Stanley Capital International's EAFE Index by 200 basis points on an annualized basis over three- to five-year periods, net of external investment management fees. This pool exists for participants who are not "qualified" (as defined by the *Internal Revenue Code*).

International Equity - This pool invests in the equities of international companies. AXA Rosenberg Investment Management, LLC, Brandes Investment Partners, LLC, LSV Asset Management and Wasatch Advisors Inc., manage the assets of this pool. The objective of the International Equity is to exceed, net of external investment management fees, Morgan Stanley Capital International's All Country World Free Ex US Index over three- to five-year periods.

Short-Term Fixed Income - The main objective of this pool is to maintain sufficient liquidity to fund withdrawals by the participant plans and to invest cash contributions until such time as the money can be transferred to other asset classes without sustaining capital losses. JP Morgan Investment Advisor's, Inc., manages this pool. This pool's investment performance, net of external investment management fees, is expected to meet or exceed the Salomon ninety-day T-bill index plus fifteen basis points.

Fixed Income - The main objective of this core bond pool is to generate investment income, provide stability and diversification, but not at the expense of total return. Western Asset Management Company, LLP, manages this pool.

Fixed Income Qualified - The main objective of this core bond pool is to generate investment income, provide stability and diversification, but not at the expense of total return. Barclays Global Investors manages this pool. Only "qualified participants" (as defined by the *Internal Revenue Code*) may invest in this pool.

Fixed Income Nonqualified - The main objective of this core bond pool is to generate investment income, provide stability and diversification, but not at the expense of total return. Barclays Global Investors manages this pool. This pool exists for participants who are not "qualified" (as defined by the *Internal Revenue Code*).

NOTE 1. DESCRIPTION OF THE ENTITY (Continued)

The composite of the Fixed Income, Fixed Income Qualified, and Fixed Income Nonqualified pools is expected to outperform, net of external investment management fees, the Lehman Brothers Universal Index over three- to five-year periods.

Private Equity - The private equity pool was established February 1, 2008 to hold the IMB's investments in various types of private equity funds. Franklin Park Associates, LLC has been retained by the IMB to provide consulting services for this asset class.

Private Real Estate - The private real estate pool was established February 1, 2008 to hold the IMB's investments in private real estate funds. Courtland Partners, Ltd. has been retained by the IMB to provide consulting services for this asset class.

Hedge Fund - The hedge fund pool was established February 1, 2008 to hold the IMB's investments in hedge funds. Albourne America, LLC has been retained by the IMB to provide consulting services for this asset class.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The IMB invests funds of the State and its component units, all of which are government entities. The investments of the Short-Term Fixed Income pool are carried at amortized cost. The investments of the remaining pools, except as noted below, are carried at fair value, which is determined by a third party pricing service based on asset portfolio pricing models and other sources. Investments in private equity, private real estate, and hedge funds, which are not publicly traded, are carried at estimated fair value as provided by the funds' management. The IMB may, in addition, consider other factors in assessing the fair value of these investments. The IMB believes that the carrying amount of such investments is a reasonable estimate of fair value as of June 30, 2008. Because these investments are not marketable, the estimated value is subject to uncertainty, and therefore, may differ from the value that would have been used had a ready market for the investment existed. Futures and option contracts are valued at the last settlement price established each day by the exchange on which they are traded. Interest rate swap values are based on market values received from third parties or are determined by valuation models. Foreign currency forward contracts are valued at either spot or forward month-end exchange rates. Investments in commingled investment pools are valued at the reported unit values of the individual funds as provided by fund's management. Commissions on the purchases of securities by the IMB are a component of the security price quoted by the seller and are included in the investment cost.

Repurchase Agreements - In connection with transactions in repurchase agreements, it is the IMB's policy that its designated custodian take possession of the underlying collateral securities, the fair value of which exceeds the principal amount of the repurchase transaction at all times. If the seller defaults, and the fair value of the collateral declines, realization of the collateral by the IMB may be delayed or limited.

Foreign Currency - Amounts denominated in or expected to settle in foreign currencies are translated into U.S. dollars at exchange rates reported by the Bank of New York Mellon on the following basis:

- a. Market value of investment securities, other assets and liabilities - at the closing rate of exchange at the valuation date.
- b. Purchases and sales of investment securities, income and expenses - at the rate of exchange prevailing on the respective dates of such transactions.

The IMB isolates that portion of the results of operations resulting from changes in foreign exchange rates on investments from the fluctuations arising from market prices of securities held.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Reported net realized foreign exchange gains and losses arise from sales of portfolio securities, sales and maturities of short-term securities, sales of foreign currencies, currency gains and losses realized between the trade and settlement dates on securities transactions, and the difference between the amounts of dividends, interest, and foreign withholding taxes recorded and the U.S. dollar equivalent of the amounts actually received or paid. Net unrealized foreign exchange gains and losses arise from changes in the value of assets and liabilities including investments in securities at month end, resulting from changes in the exchange rate.

Option Contracts - The IMB may purchase or write equity, bond, currency, or index option contracts that have recognized liquidity and are actively traded on major exchanges or are executed with major dealers. These option contracts give the purchaser of the contract the right to buy (call) or sell (put) the security, or settle cash for an index option, underlying the contract at an agreed upon price (strike price) during or at the conclusion of a specified period of time.

Premiums paid upon the purchase of an option contract are recorded as an asset and subsequently adjusted to market value. Upon exercising a purchased option, a gain is recorded equal to the difference between the market value of the underlying instrument and the strike price of the option, less premiums paid. If the option expires unexercised, a loss is recognized in the amount of the premiums paid for the option.

Premiums received when option contracts are written are recorded as a liability and subsequently adjusted to market value. If a written option contract expires unexercised, a gain is recorded equal to the amount of the premiums received. The difference between the premiums received and the amount paid to effect a closing transaction is also recorded as a gain or loss. When a written option is exercised, a loss is recorded equal to the difference between the market value of the underlying instrument and the strike price of the option, less premiums received.

One of the IMB's fixed income managers uses written option contracts to enhance investment returns and reduce portfolio convexity when implied volatility is high. Purchased option contracts are used to increase portfolio convexity when implied volatility is low, to implement certain yield curve strategies, or to hedge sector exposure.

When writing put options, there is risk that a loss may be incurred if the market price of the underlying instrument decreases and the option is exercised. This loss is determined by market conditions and cannot be specifically limited. The risk associated with writing call options is the loss of potential profit if the market price of the security increases and the option is exercised. Purchased put or call options bear the risk of loss of the premium paid if market conditions are not favorable to exercise the option. There may also be risk that the value of the option contract does not correlate perfectly with movements of the underlying instrument due to certain market distortions.

The IMB limits its exposure to credit risk by only buying or selling options traded on major exchanges, or executed with major dealers. There is a risk of the inability to enter into a closing transaction if a liquid secondary market does not exist. The IMB maintains sufficient levels of cash or cash equivalents to meet cash flow obligations.

Security Loans - The IMB, through its agent, Bank of New York Mellon, loans securities to various brokers on a temporary basis. Each transaction for U.S. securities is secured by initial collateral of at least 102 percent of the market value of the securities loaned. For international securities, the collateral is at least 105 percent of the market value of the securities on loan. Cash collateral received is invested in the Mellon GSL DBT II Collateral Fund. The IMB receives compensation in the form of loan premium fees and income from the investment of the cash collateral. Expenses related to the lending of securities are rebates paid by the lending agent to brokers and the lending agent's fees for its services. The income earned by the IMB is reported in the Statements of Operations as securities lending income. The agent fees and broker rebates are reported as expenses. The IMB also continues to receive interest or dividends on the securities loaned.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Gains or losses in the fair value of the securities loaned that may occur during the term of the loans are reflected in the various investment pools.

Futures Contracts - A futures contract is an agreement between a buyer or a seller and the clearinghouse of a futures exchange in which the parties agree to buy or sell a commodity, financial instrument or index at a specified future date and price. The IMB invests in futures contracts in the Large Cap Domestic pool, and the Fixed Income pool. Upon entering into a financial futures contract, the IMB is required to pledge to the broker an amount of cash, U.S. government securities, or other assets, equal to a certain percentage of the contract amount (initial margin deposit). Cash (variation margin) is received from or paid to the broker for the fluctuations of the underlying securities or index. The IMB records the cash received or paid for the variation margin as a realized gain or loss.

Interest rate futures may be used to enhance portfolio yields, to hedge an existing position, or as an alternative investment of cash. Stock index futures may be used to provide immediate exposure to fluctuations in the market values of the stocks in the underlying index and to provide liquidity for cash flows.

The market risk associated with holding interest rate and stock index futures results from changes in the market value of the contractual positions due to changes in the value of the underlying instruments or indices. Hedging risk associated with these futures contracts arises because the value of the futures contracts may not correlate perfectly with changes in the values of the underlying instruments or indices due to market distortions.

Other risks associated with futures contracts are liquidity risk and credit risk. Liquidity risk arises when there is insufficient trading in a particular futures contract. Credit risk arises from the potential inability of counterparties to meet the terms of the contracts. The IMB's managers generally only utilize futures contracts that are traded on major exchanges or are executed with major dealers. The major exchanges assume the risk that a counterparty will not settle and generally require an initial margin deposit of cash or securities.

Foreign Currency Forward Contracts - A foreign currency forward contract is an agreement between two parties to exchange different currencies at a specified exchange rate at an agreed upon future date. The managers of the International Equity pool and the Fixed Income pool enter into such contracts to hedge the assets and liabilities related to securities denominated in a foreign currency. Risks associated with such contracts include movement in the value of the foreign currency relative to the U.S. dollar and the ability of the counterparty to perform. These contracts have relatively short durations and are valued at the prevailing market exchange rates at month end. An unrealized gain or loss is recorded as the appreciation or depreciation in value since the inception of the contract. The unrealized gain or loss is reclassified to realized gain or loss when the contract expires.

Interest Rate Swaps - Interest rate swaps represent an agreement between counterparties to exchange cash flows based on the difference between two interest rates, applied to a notional principal amount for a specified period. Interest rate swaps do not involve the exchange of principal between the parties. Interest is paid or received periodically.

Asset-Backed Securities - Certain portfolios invest in various asset-backed securities, mortgage-backed securities, and structured corporate debt. The securities are reported at fair value. The portfolios invest in these securities to enhance yields on investments. Changes in market interest rates affect the cash flows of these securities and may result in changes in fair value. The overall return or yield on these securities depends on the changes in the interest and principal payment pattern and market value of the underlying assets.

Investment Transactions - Investment transactions are accounted for on a trade date basis.

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates - The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Gains and Losses - Gains and losses on the sale of investment securities are recognized at the time of sale by the average cost method. The calculation of realized gains and losses is independent of the calculation of the net increase or decrease in the fair value of investments. Realized gains and losses on investments held in more than one fiscal year and sold in the current year may have been recognized as an increase or decrease in the fair value of investments reported in the prior year.

Interest Income - Interest income is recognized as earned on the accrual method.

Dividend Income - Dividend income is recognized on the ex-dividend date.

Amortization - Discounts and premiums on securities purchased are amortized over the life of the respective securities using the scientific method of amortization. This method maintains a constant book yield over the life of the security. The amortization of asset-backed securities considers the effect of prepayments on the life of the security. Historical prepayment speeds are obtained from market data vendors and are updated annually. The effect of changing prepayment assumptions is reported in the Statements of Operations in the year of the change.

Distributions to Participants - The net investment income of the Short-Term Fixed Income pool is declared as a dividend and distributed daily to the participants based upon their pro rata participation in the pool. The distributions of net investment income are credited to the participants' accounts in the form of dividend reinvestments in the pool and are presented first as distributions to participants, and then as reinvestment of distributions on the Statements of Changes in Net Assets.

The monthly net investment income of the Fixed Income pool is declared as a dividend on the last day of the month and distributed to the participants of the pool on the first day of the following month. Distributions are paid in the form of reinvestments in the pool and have been included in distributions to participants and reinvestment of distributions as presented on the Statements of Changes in Net Assets.

The remaining pools do not routinely distribute dividends and none of the pools routinely distribute net capital gains. However, on April 1, 2008 the Non-Large Cap Domestic pool declared and paid a special dividend in the amount of \$680,591,523 consisting of undistributed income and realized gains accumulated through June 30, 2007. Also, on June 30, 2008 the Fixed Income Qualified pool declared a special dividend of \$275,781,395 consisting of realized gains net of operating losses. This dividend was reinvested on July 1, 2008. The dividend payments in both pools were made to facilitate participant withdrawals from the pools to fund transfers to other investment classes. The Hedge Fund pool distributed a net operating loss in excess of paid-in capital of \$206,406 to its participants on June 30, 2008.

Expenses - The IMB's Trustees adopt an annual budget and fee schedule for services to be provided to the respective pools. Each pool is charged for its direct investment-related cost and for its allocated share of other expenses. These other expenses are allocated to the pools based on asset size. The IMB pays all expenses on behalf of the pools.

Income Taxes - The IMB is a public corporation organized under laws of the State of West Virginia and exempt from federal and state taxation. Accordingly, the financial statements have been prepared recognizing that the IMB is not subject to federal or state income taxes.

Recently Issued Accounting Pronouncement - In September 2006, the FASB issued SFAS No. 157, "Fair Value Measurements." SFAS No. 157 provides enhanced guidance for using fair value to measure assets and liabilities. SFAS No. 157 also responds to investors' requests for expanded information about the

NOTE 2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

extent to which companies measure assets and liabilities at fair value, the information used to measure fair value, and the effect of fair value measurements on earnings. SFAS No. 157 applies whenever other standards require (or permit) assets or liabilities to be measured at fair value. SFAS No. 157 does not expand the use of fair value in any new circumstances. The IMB will be required to apply the new guidance effective July 1, 2008 and is in the process of determining the impact of applying SFAS No. 157 on its financial position and results of operations.

NOTE 3. INVESTMENT RISK DISCLOSURES

Large Cap Domestic

This pool holds equity securities of U.S. companies and money market funds with the highest credit rating. These types of securities are not exposed to credit risk, interest rate risk, custodial credit risk, or foreign currency risk. At June 30, 2008, this pool, in accordance with West Virginia statutes, did not hold securities of any one issuer in excess of 5 percent of the value of the pool and is not exposed to concentration of credit risk.

Non-Large Cap Domestic

This pool holds equity securities of U.S. companies and money market funds with the highest credit rating. These types of securities are not exposed to credit risk, interest rate risk, custodial credit risk, or foreign currency risk. At June 30, 2008, this pool, in accordance with West Virginia statutes, did not hold securities of any one issuer in excess of 5 percent of the value of the pool and is not exposed to concentration of credit risk.

International Qualified

This pool holds an institutional mutual fund that invests in equities denominated in foreign currencies. The value of this investment at June 30, 2008, was \$450,336,000. This investment, although denominated in U.S. dollars, is exposed to foreign currency risk. West Virginia statute limits the amount of international securities to no more than thirty percent of the total assets managed by the IMB. At June 30, 2008 the IMB was in compliance with this limitation. This pool is not exposed to credit risk, interest rate risk, custodial credit risk, or concentration of credit risk.

International Nonqualified

This pool holds an institutional mutual fund that invests in equities denominated in foreign currencies. The value of this investment at June 30, 2008, was \$57,888,000. This investment, although denominated in U.S. dollars, is exposed to foreign currency risk. West Virginia statute limits the amount of international securities to no more than thirty percent of the total assets managed by the IMB. At June 30, 2008 the IMB was in compliance with this limitation. This pool is not exposed to credit risk, interest rate risk, custodial credit risk, or concentration of credit risk.

International Equity

This pool is not exposed to credit risk, interest rate risk, or custodial credit risk. At June 30, 2008, this pool, in accordance with West Virginia statutes, did not hold securities of any one issuer in excess of 5 percent of the value of the pool. This pool has both equity securities and cash that are denominated in foreign currencies and are exposed to foreign currency risks. West Virginia statute limits the amount of international securities to no more than thirty percent of the total assets managed by the IMB. At June 30, 2008 the IMB was in compliance with this limitation. The amounts at fair value (in U.S. dollars) of the securities and cash denominated in foreign currencies as of June 30, 2008 are as follows:

NOTE 3. INVESTMENT RISK DISCLOSURES (Continued)

Currency	Equity Securities	Cash	Total

This table excludes cash and securities held by the pool that are denominated in US dollars. The market value of the US dollar denominated cash and securities is \$131,020,647.

Short-Term Fixed Income

Credit Risk

The IMB limits the exposure to credit risk in the Short-Term Fixed Income pool by requiring all corporate bonds to be rated AA or higher. Commercial paper must be rated A1 by Standard & Poor's and P1 by Moody's. Additionally, the pool must have at least 15 percent of its assets in United States Treasury issues.

The following table provides information on the weighted average credit ratings of the Short-Term Fixed Income pool's investments as of June 30, 2008.

Security Type	Moody's	S&P	Carrying Value	Percent
Agency bonds	Aaa	AAA	\$ 74,229,589	31.5%
Commercial Paper	P1	A-1	69,169,330	29.4%
U.S. Treasury bills	Aaa	AAA	37,994,460	16.2%
Agency discount notes	P1	A-1	27,640,155	11.8%
U.S. Treasury note	Aaa	AAA	26,096,607	11.1%
Money market fund	Aaa	AAA	852	0.0%
Total rated investments			\$ 235,130,993	100.0%

NOTE 3. INVESTMENT RISK DISCLOSURES (Continued)

This table includes securities received as collateral for repurchase agreements with a fair value of \$76,827,545 as compared to the amortized cost of the repurchase agreements of \$75,621,000.

Concentration of Credit Risk

West Virginia statutes prohibit the Short-Term Fixed Income pool from investing more than 5 percent of its assets in securities issued by a single private corporation or association. At June 30, 2008, the pool did not have investments in any one private corporation or association that represented more than 5 percent of assets.

Custodial Credit Risk

At June 30, 2008, the Short-Term Fixed Income pool held no securities that were subject to custodial credit risk. Repurchase agreements are collateralized at 102 percent and the collateral is held in the name of the IMB. All remaining securities are held by the IMB's custodian in the name of the IMB. Securities lending collateral that is reported in the Statements of Assets and Liabilities is invested in the lending agent's money market fund.

Interest Rate Risk

The weighted average maturity of the investments of the Short-Term Fixed Income pool is not to exceed 60 days. The maturity of floating rate notes is assumed to be the next interest rate reset date. The following table provides the weighted average maturities (WAM) for the various asset types in the Short-Term pool as of June 30, 2008.

Security Type	Carrying Value	WAM (days)
Repurchase agreements	\$ 75,621,000	1
Commercial paper	69,169,330	27
US Treasury bills	37,994,460	5
Agency discount notes	27,640,155	51
Agency bonds	23,498,651	35
Money market fund	852	1
Total assets	<u>\$ 233,924,448</u>	<u>19</u>

Foreign Currency Risk

The Short-Term Fixed Income pool has no securities that are subject to foreign currency risk.

Fixed Income

Credit Risk

The IMB limits the exposure to credit risk in the Fixed Income pool by maintaining at least an average rating of investment grade as defined by the Nationally Recognized Statistical Rating Organizations. The following table provides the weighted average credit ratings of the rated assets in the Fixed Income pool as of June 30, 2008.

Security Type	Moody's	S&P	Fair Value	Percent of Assets
Corporate bonds and notes	Baa	BBB	\$ 609,696,835	22.0%
Agency mortgage backed securities	Aaa	AAA	234,846,187	8.5%
Corporate asset backed securities	Aaa	AAA	137,308,217	5.0%
Money market funds	Aaa	AAA	135,041,247	4.9%
U. S. Treasury bonds and notes	Aaa	AAA	76,318,725	2.7%
Agency discount notes	P1	A-1	17,537,793	0.6%
Agency bonds	Aaa	AAA	5,282,195	0.2%
Total rated investments			<u>\$ 1,216,031,199</u>	<u>43.9%</u>

NOTE 3. INVESTMENT RISK DISCLOSURES (Continued)

Unrated securities include commingled investment pools valued at \$1,549,051,012, swaps, options, and swaptions valued at \$(4,248,293), and cash of \$11,984,018 pledged to brokers as collateral. These unrated securities represent 56.1 percent of the fair value of the pool's investments.

Concentration of Credit Risk

West Virginia statutes prohibit the Fixed Income pool from investing more than 5 percent of its assets in securities issued by a single private corporation or association. At June 30, 2008, the Fixed Income pool did not have investments in any one private corporation or association that represented more than five percent of assets.

Custodial Credit Risk

At June 30, 2008, the Fixed Income pool held no securities that were subject to custodial credit risk. Repurchase agreements, when held, are collateralized at 102 percent and the collateral is held in the name of the IMB. Investments in commingled funds are held in an account in the name of the IMB. All remaining securities are held by the IMB's custodian in the name of the IMB. Securities lending collateral that is reported in the Statement of Assets and Liabilities is invested in the lending agent's money market fund.

Interest Rate Risk

The IMB monitors interest rate risk of the Fixed Income pool by evaluating the modified duration of the investments in the pool. The following table provides the weighted average modified duration for the various asset types in the Fixed Income pool as of June 30, 2008.

Security Type	Fair Value	Modified Duration (years)
Commingled investment pools	\$ 1,549,051,012	3.3
Corporate notes and bonds	609,696,835	6.2
U. S. Treasury notes and bonds	76,318,725	7.9
Corporate asset backed securities	137,308,217	7.0
Agency mortgage backed securities	234,846,187	10.8
Agency bonds	5,282,195	8.5
Money market fund	135,041,247	0.0
Agency discount notes	17,537,793	0.5
Total assets	<u>\$ 2,765,082,211</u>	<u>5.4</u>

The Fixed Income pool invests in commercial and residential mortgage-backed and asset-backed securities. The cash flows from these securities are based on the payment of the underlying collateral. The modified duration and yield to maturity of these securities are dependent on estimated prepayment assumptions that consider historical experience, market conditions and other criteria. Actual prepayments may vary with changes in interest rates. Rising interest rates often result in a slower rate of prepayments while declining rates tend to lead to faster prepayments. As a result, the fair values of these securities are highly sensitive to interest rate changes. At June 30, 2008, the Fixed Income pool held \$372,154,404 of these securities. This represents approximately 13 percent of the value of the fixed income pools.

Foreign Currency Risk

None of the notes, bonds, asset backed securities, mortgage backed securities, or money market fund held by the Fixed Income pool are exposed to foreign currency risk. However, the pool does have futures, options, swaps, and foreign exchange futures that are denominated in foreign currencies. Refer to Notes 5, 6, 7 and 10 for details on these instruments. Additionally, the pool has indirect exposure to foreign currency risk through its ownership interests in certain of the commingled investment pools. Approximately \$148,326,000, or 10 percent, of the commingled investment pools hold substantially all of their investments in foreign currencies. West Virginia statute limits the amount of international securities to no more than

NOTE 3. INVESTMENT RISK DISCLOSURES (Continued)

30 percent of the total assets managed by the IMB. At June 30, 2008 the IMB was in compliance with this limitation.

Fixed Income Qualified

This pool holds positions in institutional mutual funds with a combined value of \$749,333,959 at June 30, 2008, that invest in mortgage-backed securities and corporate bonds. The mutual funds are unrated. The weighted average modified duration of the underlying securities is 5.6 years. This pool is not exposed to custodial credit risk, concentration of credit risk, or foreign currency risk.

Fixed Income Nonqualified

This pool holds positions in institutional mutual funds with a combined value of \$474,561,035 at June 30, 2008, that invest in mortgage-backed securities and corporate bonds. The mutual funds are unrated. The weighted average modified duration of the underlying securities is 5.6 years. This pool is not exposed to custodial credit risk, concentration of credit risk, or foreign currency risk.

Private Equity

This pool holds limited partnerships, shares of an institutional commingled fund and a money market fund with the highest credit rating. These securities of this pool are not exposed to credit risk, interest rate risk, or custodial credit risk. There may be indirect exposure to foreign currency risk through one or more partnerships and the commingled fund. This risk cannot be reasonably quantified. At June 30, 2008, this pool, in accordance with West Virginia statutes, did not hold securities of any one issuer in excess of 5 percent of the value of the pool and is not exposed to concentration of credit risk.

Private Real Estate

This pool holds shares of an institutional commingled fund and a money market fund with the highest credit rating. These securities of this pool are not exposed to credit risk, interest rate risk, custodial credit risk, or foreign currency risk. At June 30, 2008, this pool, in accordance with West Virginia statutes, did not hold securities of any one issuer in excess of 5 percent of the value of the pool and is not exposed to concentration of credit risk.

Hedge Fund

This pool holds shares of a money market fund with the highest credit rating. This security is not exposed to credit risk, interest rate risk, custodial credit risk, foreign currency risk, or concentration of credit risk.

NOTE 4. SECURITIES LENDING

At June 30, 2008, the fair value of securities on loan and the collateral held by the pools of the IMB are as follows:

	Fair Value of Securities on Loan	Collateral Held
Large Cap Domestic	\$ 85,123,218	\$ 88,706,290
Non-Large Cap Domestic	127,391,815	132,478,414
International Equity	191,224,817	206,922,304
Short Term Fixed Income	36,496,675	37,011,844
Fixed Income	95,333,498	96,348,656
Total	<u>\$ 535,570,023</u>	<u>\$ 561,467,508</u>

Of the collateral held, \$526,961,000 was received as cash. The collateral received as cash is invested in the Mellon GSL DBT II Collateral Fund. Securities received as collateral are not reported on the Statements of Assets and Liabilities.

NOTE 5. FUTURES CONTRACTS

At June 30, 2008, open positions in futures contracts denominated in US dollars are as follows:

Expiration	Open Contracts		Position	Value Upon Entering Contract	Value at June 30, 2008	Cumulative Net Gain(Loss) Since Inception
<i>Large Cap Domestic</i>						
Sep 2008	65	S&P 500	Long	\$ 4,405,825	\$ 4,163,575	\$ (242,250)
<i>Fixed Income</i>						
Sep 2008	748	US 2 YR T Note	Long	\$ 157,884,188	\$ 157,979,938	\$ 95,750
Sep 2008	440	US 5 YR T Note	Long	48,150,711	48,644,063	493,352

Dec 2008	500	Euro 90 Day	Long	122,312,500	121,025,000	(1,287,500)
Mar 2009	2,901	Euro 90 Day	Long	706,559,275	701,171,700	(5,387,575)
Sep 2008	(2,359)	US 10 YR T Note	Short	(267,830,930)	(268,741,703)	(910,773)
Sep 2008	(1,117)	US Treasury Bond	Short	(128,232,984)	(129,118,219)	(885,235)
				<u>\$ 972,347,685</u>	<u>\$ 962,212,154</u>	<u>\$ (10,135,531)</u>

At June 30, 2008, open positions in futures contracts denominated in foreign currencies are as follows:

Expiration	Open Contracts		Currency	Position	Initial Value in Local Currency	Value at June 30, 2008 in Local Currency	June 30, 2008 Exchange Rate	Cumulative Net Gain(Loss) Since Inception
<i>Fixed Income</i>								
Sep 2008	272	Euro Bund	Euro	Long	30,561,840	30,075,040	1.57555	\$ (767,104)
Sep 2008	396	Euro-BOBL	Euro	Long	42,483,070	41,888,880	1.57555	(895,416)
Sep 2008	1,200	Euro Euribor	Euro	Long	287,565,000	284,775,000	1.57555	(4,395,785)
Mar 2009	451	90 Day Libor	British Pound	Long	52,887,244	52,885,388	1.99015	(3,694)
								<u>\$ (6,061,999)</u>

At June 30, 2008, the Large Cap Domestic pool and the Fixed Income pool have pledged cash and securities valued at \$234,000 and \$28,622,000 respectively to cover initial margin requirements on open futures contracts.

At June 30, 2008, the net variation margin receivable of \$4,000 in the Large Cap Domestic pool represents one day's settlement on open futures contracts. The net variation margin payable of \$6,169,000 in the Fixed Income pool includes one day's settlement on open U.S. dollar futures contracts of \$107,000 and the cumulative margin due on open foreign currency denominated futures contracts of \$6,062,000.

NOTE 6. SWAPS

At June 30, 2008, the Fixed Income pool held the following interest rate swaps:

Counterparty	Notional Value	Maturity Date	Receiving			Paying			Fair Value
			Rate	Type	Base	Rate	Type	Base	
Greenwich Capital	\$ 64,000,000	04/11/2010	4.285%	Fixed	N/A	5.12938%	Floating	6 mo. Euribor	\$ (1,731,633)
Deutsche Bank	48,800,000	04/14/2010	4.253%	Fixed	N/A	5.12938%	Floating	6 mo. Euribor	(1,363,304)

NOTE 8. COMMITMENTS

The IMB, with the assistance of its specialty consultants, began implementing its plan to invest in private equity, real estate, and hedge funds in February 2008. As of June 30, 2008, the IMB has made commitments to seven private equity general partnerships totaling \$305,000,000. The IMB had funded \$18,741,879 of these commitments at June 30, 2008, leaving unfunded commitments of \$286,258,121. The IMB also committed \$80,000,000 to two real estate partnerships. The IMB had funded \$15,000,000 of these commitments at June 30, 2008 leaving unfunded commitments of \$65,000,000.

NOTE 9. FOREIGN CURRENCY FORWARD CONTRACTS

At June 30, 2008, the Non-Large Cap Domestic pool, the International Equity pool and the Fixed Income pool, held the following open foreign currency forward contracts:

Position	Foreign Currency	Inception Date	Expiration Date	Receivable (in foreign currency)	(in U.S. dollars)	Payable (in foreign currency)	(in U.S. dollars)	Unrealized Appreciation (depreciation)
<i>Non-Large Domestic</i>

NOTE 10. SUBSEQUENT EVENT

On July 1, 2008, the IMB made commitments to nineteen hedge funds totaling \$1,200,000,000. The IMB funded \$1,152,000,000 of these commitments on July 1, 2008 and the remaining \$48,000,000 on July 29, 2008. Proceeds from sales in the Fixed Income pool, the Fixed Income Qualified pool and the Fixed Income Nonqualified pool were used to fund the Hedge Fund commitments.

Management's Discussion and Analysis

This discussion and analysis of the West Virginia Investment Management Board's (IMB) Administrative Fund financial performance provides an overview of the IMB's administrative financial activities for the fiscal year ended June 30, 2008. Please read it in conjunction with the IMB Administrative Fund basic financial statements, which follow this discussion. The IMB operates investment pools and issues separate audited financial statements on the investment pools, which are not included in this discussion.

FINANCIAL HIGHLIGHTS

- The IMB is required by law to charge a fee sufficient to cover the cost of providing investment management services. Investment service fee revenues were \$25.0 million as compared to \$22.9 million for the previous fiscal year. The change primarily results from fees charged to cover investment consulting and legal fees incurred with the implementation of the IMB's program to invest in alternative asset classes.
- Fees paid to outside investment advisors increased by \$0.8 million over the previous year as a result of higher performance-based fees for certain domestic investment advisors. Average net assets of the investment pools managed by the IMB increased by \$1.7 billion over the previous year. The average expense ratio for investment advisor fees across all pools was 18.0 basis points for the year as compared to 20.9 basis points for the previous year.
- Professional service fees increased by \$1.2 million over the previous year. This increase resulted from consultant and legal fees for private equity, hedge funds and private real estate.
- Custody fees were fairly consistent with the previous year despite increased asset levels in the more expensive international accounts and increased transaction volume resulting from the implementation of new asset allocation plans. Custodial fees for international securities were renegotiated and were decreased in October 2007.
- Administrative expenses increased by \$265,000, or 11 percent from the previous year. The expense ratio for administrative expenses was 2.5 basis points of average net assets as compared to 2.7 basis points for the previous year. Expenses with significant changes from the previous year are:
 - Personnel costs increased \$226,000, including an \$88,000 increase in health insurance premiums
 - Travel and education expenses for staff and trustees increased by \$35,000, primarily due to trustee attendance at educational conferences
 - All other expenses had a net increase of \$4,000
- Dividend income for the year was \$173,000. This was \$82,000 lower than the previous year. This decrease is primarily a result of the decrease in market interest rates.

THE FINANCIAL REPORTS

This financial report consists of three financial statements: the Statement of Net Assets; the Statement of Revenues, Expenses, and Changes in Net Assets; and the Statement of Cash Flows. These statements include all assets and liabilities of the IMB Administrative Fund using the economic resources measurement focus and the accrual basis of accounting. The accrual basis of accounting takes into account all revenues and expenses regardless of when cash is received or paid. These statements give an overall perspective of the IMB Administrative Fund's financial position and the changes in the financial position during the current fiscal year.

The Statement of Net Assets presents the IMB Administrative Fund's assets and liabilities, with the difference between the two reported as net assets. The Statement of Revenues, Expenses, and Changes in Net Assets describe how the IMB Administrative Fund's net assets changed during the fiscal year. The Statement of Cash Flows identifies the sources of cash received by the IMB Administrative Fund and how that cash was used in the IMB Administrative Fund's activities during the year. The ending cash presented in this statement is a significant portion of the IMB Administrative Fund's assets as reported in the Statement of Net Assets. This statement also contains a reconciliation of the operating loss as reported in the Statement of Revenues, Expenses, and Changes in Net Assets to the cash provided by the IMB Administrative Fund's operating activities during the year.

FINANCIAL ANALYSIS

The IMB Administrative Fund's total assets as of June 30, 2008, were \$10.1 million, and were mostly comprised of cash and cash equivalents and receivables for investment service fees. This was \$1.3 million higher than the previous year.

Total liabilities as of June 30, 2008, were \$5.9 million, consisting of invoices payable and accrued liabilities for external investment management and consulting fees, custodial fees, and administrative expenses. This was \$1.2 million higher than the previous year and is a result of higher performance fees for domestic equity managers, alternative investment consultant and legal fees.

Independent Auditors' Report

Board of Trustees
West Virginia Investment Management Board:

We have audited the accompanying statement of net assets of the West Virginia Investment Management Board Administrative Fund (the Fund), an internal service fund of the State of West Virginia, as of June 30, 2008, and the related statements of revenues, expenses and changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the Fund's management. Our responsibility is to express an opinion on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in note 1, the West Virginia Investment Management Board is comprised of an Administrative Fund and nine Investment Pools. These financial statements present only the Administrative Fund of the West Virginia Investment Management Board and do not include the financial position and results of operations of the Investment Pools. Accordingly, these financial statements do not purport to, and do not, present the complete financial position of the West Virginia Investment Management Board as of June 30, 2008, or the changes in its financial position for the year then ended in conformity with accounting principles generally accepted in the United States of America.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the West Virginia Investment Management Board Administrative Fund as of June 30, 2008, and the changes in its net assets and its cash flows for the year then ended in conformity with generally accepted accounting principles.

The information in the Management's Discussion and Analysis section on pages i, ii, and iii is not a required part of the basic financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted primarily of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

West Virginia Investment Management Board

Administrative Fund

Notes to Financial Statements

June 30, 2008

Note 1. Nature of Organization

The West Virginia Investment Management Board (IMB) was organized on April 25, 1997, as a public corporation created by *West Virginia Code §12-6-1* to provide prudent fiscal administration and investment management services to designated State pension funds, the State's Workers' Compensation and Pneumoconiosis funds, and certain other State government funds. The IMB has established distinct investment pools to efficiently invest the entrusted funds. Separate financial statements are issued for these investment pools and are not included herein. The IMB Administrative Fund's financial statements are included as an internal service fund of the State of West Virginia in the State's financial statements.

A Board of Trustees, consisting of thirteen members, governs the IMB. The Governor, the State Auditor, and the State Treasurer are ex officio members of the Board of Trustees. The Governor appoints all other trustees for a term of six years.

Note 2. Significant Accounting Policies

The accounting and reporting policies of the IMB Administrative Fund conform to accounting principles generally accepted in the United States of America. The following is a summary of significant accounting policies.

Cash and Cash Equivalents - Cash and cash equivalents consist of cash held in checking and money market accounts. Management believes the IMB Administrative Fund is not exposed to any significant credit or market risk on cash and cash equivalents. Cash equivalents are maintained with a financial institution in an institutional Treasury Money Market Fund which has an average maturity of less than 90 days.

Property & Equipment - Purchased equipment is recorded at cost. Donated equipment is recorded at estimated fair value at date of donation. Depreciation on purchased and donated assets is provided for over the estimated useful lives of the assets ranging from three years to five years using the straight-line method. Leasehold improvements are amortized over the life of the lease.

Revenues and Expenses - The IMB's Board of Trustees adopts an annual budget and fee schedule for services to be provided to the investment pools. Revenues of the IMB Administrative Fund are derived from the allocation of fees to the investment pools per the fee schedule. Each investment pool is charged for its direct investment-related cost and for its allocated share of other expenses. Revenues and expenses are recorded when earned or incurred in accordance with the economic resources measurement focus and the accrual basis of accounting. The carrying value of investment service fees receivable approximates its fair value.

Government Accounting Standards Board (GASB) Statement Number 20, "Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting" – The IMB Administrative Fund applies all applicable GASB pronouncements, and has elected to apply only those Financial Accounting Standards Board (FASB) Statements and Interpretations, Accounting Principles Board Opinions, and Accounting Research Bulletins issued on or before November 30, 1989 that do not conflict with or contradict GASB Pronouncements.

Use of Estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Income Taxes - The IMB is a public corporation organized under laws of the State of West Virginia and is exempt from federal and state taxation. Accordingly, the IMB Administrative Fund financial statements have been prepared recognizing that the IMB is not subject to federal or state income taxes.

Note 3. Capital Assets

Capital assets activity for the fiscal year ended June 30, 2008 was as follows:

	<u>Beginning Balance</u>	<u>Increases</u>	<u>Decreases</u>	<u>Ending Balance</u>
Capital assets, being depreciated:				
Office equipment	\$ 552,886	\$ -	\$ (582)	\$ 552,304
Office furniture	125,245	-	-	125,245
Leasehold improvements	45,492	-	-	45,492
Total capital assets, being depreciated	723,623	-	(582)	723,041
Less accumulated depreciation for:				
Office equipment	(546,663)	(3,637)	582	(549,718)
Office furniture	(125,245)	-	-	(125,245)
Leasehold improvements	(40,943)	(4,549)	-	(45,492)
Total accumulated depreciation	(712,851)	(8,186)	582	(720,455)
Capital assets, net	<u>\$ 10,772</u>	<u>\$ (8,186)</u>	<u>\$ -</u>	<u>\$ 2,586</u>

Depreciation expense of \$8,186 was charged to the investment management activity and is included in the administrative expenses. Fully depreciated office equipment originally valued at \$582 was disposed of during the year.

Note 4. Operating Leases

On August 26, 2002, the IMB entered into a long-term lease for office space for a term of five years. The lease commenced on January 1, 2003, and the monthly rent expense for years one through three was \$14,747. For years four through five, the monthly rent expense was \$15,523. Under the lease terms, beginning on January 1, 2004, and continuing throughout the term, the IMB shall pay as additional rent a portion of the increase in utility costs and taxes over the base year 2003 amounts. Rent expense for the period July 1, 2007 to June 30, 2008 totaled \$186,280. On December 7, 2006, the IMB executed an amendment to renew its long-term lease for a period of five years beginning on January 1, 2008 at a monthly cost of \$15,523. The IMB may extend the lease for an additional three years at the then existing fair market rental rate by giving notice to the landlord seven months previous to the expiration of the lease.

The following is a schedule of future minimum rental payments required under this lease:

Fiscal Years ending June 30:

2009-2012	\$ 186,280 per year
Thereafter	\$ 93,140

Note 5. Employee Benefit Plan

The IMB provides a defined contribution money purchase pension plan covering all of its employees. An employee becomes eligible to participate in the plan on the earlier of the January 1 or July 1 coinciding with or following the employee's hire date. The IMB contributes 10 percent of each covered employee's salary. Contributions for the period from July 1, 2007 to June 30, 2008 totaled \$132,095. The plan provides for a five-year vesting schedule with vesting increasing 20 percent per year.

Note 6. Cash and Investment Risk

At June 30, 2008, all of the IMB Administrative Fund's cash equivalents are invested in an institutional Treasury Money Market fund. This investment fund is rated Aaa by Moody's and AAA by Standard & Poor's and has no significant custodial credit risk or interest rate risk. The investment fund invests in U.S. Treasuries and is not exposed to a concentration of credit risk or any foreign currency risk. Cash balances are held in a FDIC insured bank account, the balance of which is below the \$100,000 insurance limit at all times.
